

## **An Update on Laser Ranging to LRO**

*J. McGarry, T. Zagwodzki, R. Ricklefs, G. Neumann, M. Torrence, J. Horvath, C. Clarke, C. Noll, M. Pearlman*

As the Lunar Orbiter Laser Altimeter (LOLA) instrument and the Laser Ranging flight sub-system are being completed for a fall 2007 delivery to the LRO spacecraft, the Laser Ranging Ground System activities are gearing up. The current status of the LRO Laser Ranging ground systems will be described along with the data flow and data formats that will be used.
